

I was recently informed that there is a possibility that my community could lose my FM station K-LOVE 91.9 to a LPFM station. I listen to K-LOVE constantly and believe so strongly in the positive effects this radio station has that I have been a monthly financial supporter for years. There is no other radio station that merits that type of loyalty from me; no other radio station affects my community in such a positive way. K-LOVE listeners are a diverse group. They are children, teens & adults. They are Believers and non-believers - The one commonality they share is the undeniable positive, peaceful feeling they get from listening to music filled with love and hope. As a parent I appreciate that the programming is always family friendly. Please strongly consider the ramifications of taking away the only "positive alternative" we have on the radio dial. Thank you.
